

Hunter Build & Solar Ltd

19 Bunbury Rd
Bury St. Edmunds, Suffolk IP32 6HU
United Kingdom

Phone: 07944939438

Hunter Build & Solar Ltd are trusted specialists in solar panel installation and professional building services across Suffolk and Norfolk. With over 35 years of experience in construction and renewable energy, they combine expert craftsmanship with cutting-edge technology to deliver energy-efficient, sustainable solutions for homes and businesses. As a fully accredited building and maintenance company, Hunter Build & Solar provide complete project management — from general building works and new build developments to renewable installations and energy upgrades. Their renewable division focuses on solar panels, PV solar systems, solar battery installation, and EV charger installation, helping homeowners and businesses reduce energy costs and lower their carbon footprint. Every system is designed and installed by qualified professionals, ensuring maximum efficiency and long-term reliability. They also provide ongoing solar panel maintenance and performance checks to keep systems running at peak performance year-round. In addition to renewables, Hunter Build & Solar continue to offer high-quality building, extensions, and property improvement services throughout Suffolk and Norfolk. Known for their honest advice, attention to detail, and friendly approach, the company pride themselves on delivering reliable results that stand the test of time. Whether you're looking to future-proof your home with clean energy or expand your living space, Hunter Build & Solar Ltd are your local experts in building and renewable energy solutions. Website:
